**POMONA, Calif. — June 14, 2013** — Associated Students, Inc. (ASI) is excited to announce that the new swimming pool for the Bronco Recreation & Intramural Complex (BRIC) project is completed. The Kinesiology and Health Promotion Department (KHP) will begin to use the new facility on Monday, June 24, 2013. Construction is continuing on the BRIC building that will be located north of the new swimming pool.

C.W. Driver, the construction management company for the BRIC, has removed the fencing from the south, southeast, and southwest perimeters of the construction site revealing the enclosure for the new pool. The half-acre portion of the project includes a 10-lane lap pool connected to a sizeable leisure pool as well as dedicated restrooms and support buildings. Additionally, new pedestrian walkways to Darlene May Gymnasium are accessible.

The Kinesiology and Health Promotion Department (KHP), under the direction of Department Chair Perky Vetter, will utilize the pool beginning June 24. “We are delighted to finally have a swimming facility that can accommodate all programs at Cal Poly Pomona — from children to university students,” said Vetter. “Pool users will find it safe to learn how to swim or get in a great workout by doing laps. There will be something for everyone — including shade on hot days. The collaboration between Academic Affairs and ASI has been wonderful with the result being a state-of-the-art swimming pool.”

The main building of the BRIC is scheduled to be completed by Fall 2014. At that time, all currently enrolled students and registered members from the campus community will have

access to the 120,000 square-foot complex including the pool, 51-foot indoor rock climbing wall, five- multi-activity studios, four-court gymnasium, indoor-running track, two racquetball courts, the latest cardio and strength training equipment and juice bar.
