On Wednesday, November 28, California Governor Gray Davis announced the appointment of Cal Poly Pomona student, Erene S. Thomas as a student member of the California State University Board of Trustees. Erene's participation on campus extends far beyond her studies as a student in Computer Information Systems. Her co-curricular activities at Cal Poly Pomona include Multicultural Council President and representative for the Multicultural Council on the ASI Senate. In addition to her involvement on campus, Erene has also been awarded for her academic excellence from the Golden State Reading/Literature Examination in 1999, and from the Golden State Geometry Examination in 1997. We hope you will join ASI in congratulating Erene for receiving this high honor. She will proudly represent Cal Poly Pomona and the interests of all California State University Students.
